Chief, R&D Branch
Chief, R&D Laboratory

9 December 1957

Service and Maintenance of Radiological Survey and Radiation
Detection Instruments [] Proposal for

- REF : (a) Memorandum Administrative Officer Program Coordination
Division, Medical Staff to Office of Communications dated
20 November 1957.
(b) Memorandum Chief Medical Staff to D/CO dated 15 October 1956

1. The following is a proposed schedule for service and
preventive maintenance of all radiological survey and radiation
detection instruments []

- a) A check and calibration of each instrument
to be made once each six months.
- b) A complete change of batteries once each
year.
- c) A cursory examination and operational check
to be made on a monthly basis to locate
non-operating units. This check to be
made on or before the 15th of each month.
- d) The R&D Laboratory will initiate and forward
to the Medical Department a request for
replacement parts for non-operating units.
- e) Prepare and forward to the Chief, Medical
Staff, a memorandum indicating the status
of the equipment once each month.

2. At the present time [] of the R&D Laboratory
is maintaining this equipment on a time available basis in
accordance with reference (b).
